

McDonnell F-2H Banshee

Modified 3-view by Tom Akery August 24, 2010

For Personal Use Only Catajet 11.5 wingspan

Hip Pocket Aeronautics

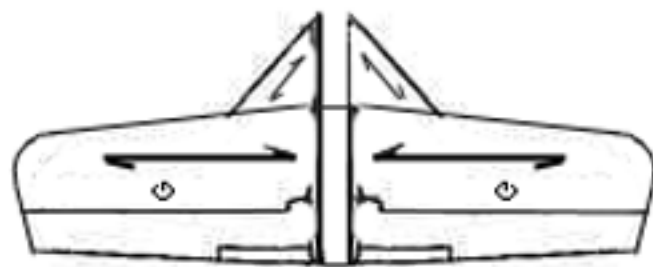

Fuselage made with three laminations of 1/32 balsa center sheet with diagonal grain. Can include vertical fin and rudder.

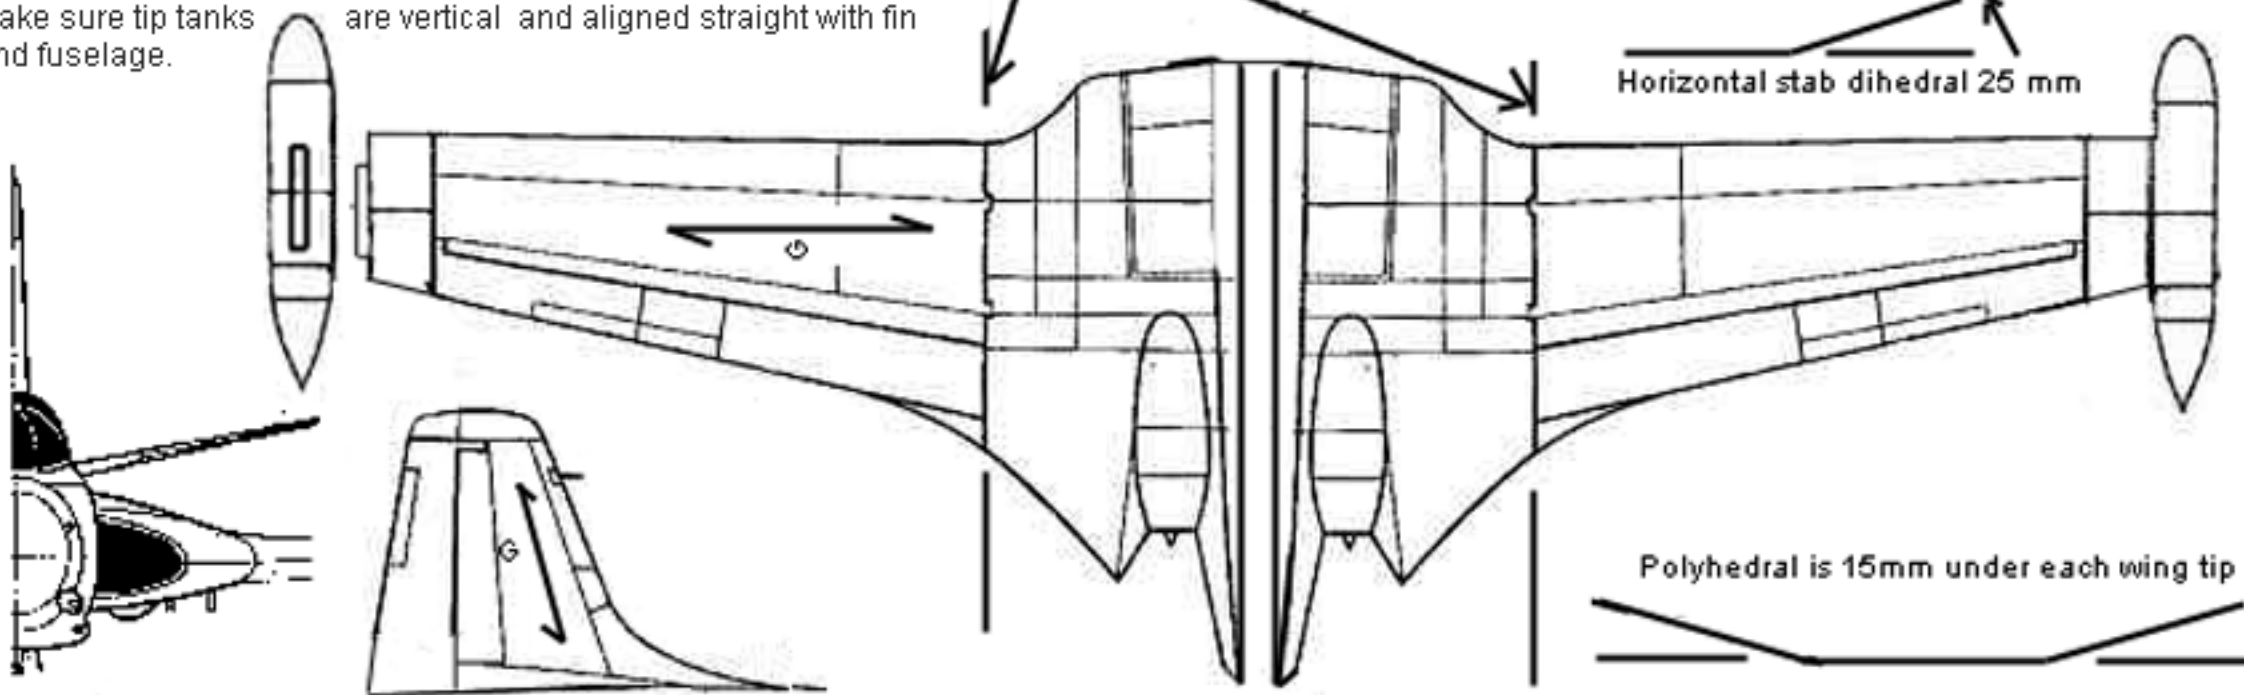

Wing made from 3/32 balsa sanded from root to tip tapering to 1/16 Then sand in your favorite airfoil with apex at 25% chord from LE Horizontal stab is 1/32 sheet stiff balsa as are the tip tanks Make sure tip tanks are vertical and aligned straight with fin and fuselage.

Polyhedral breaks

Decalage is wing at plus 1.5 degrees horizontal stab at neg. 1 to 2 degrees

Horizontal stab dihedral 25 mm

Polyhedral is 15mm under each wing tip
