

**PURE NOSTALGIA:  
UNKNOWN 1950s OHLG FROM ATYM**

As a kid, I started building these at about age 7 and built perhaps 10 of them. I traced the plans to construction paper (!) and have carried them around for the last 53 years. This is the first airplane I ever lost in a thermal (it was a BIG thermal!). I would love to see an original copy of the plans if any Hip Pocket-ers happen to have them. I have no idea who the designer is (was?). I believe the magazine had the prototype Boeing 707 or KC-135 on the cover. Airfoil and CG as accurate as can be expected from a 7 year old boy.
