

1943 Blohm und Voss P.204. Attack/Dive Bomber.

The X-Projects. Some flew (secretly). Some did not proceed beyond prototype mock-up. Some strictly drawings. AeroPlans is a forum for the unusual and rare and we invite our more adventurous modelers to try their hand at making flying models of what were truly X-Projects.

Another mixed-powerplant project, the P.204 was designed for ground attack and dive bombing. The fuselage housed a conventional radial engine in the nose, with a BMW 003A turbojet mounted underneath the port wing and close to the root.

Bombs were to be carried within the fuselage, while a single BV 246 glide bomb could be carried under the fuselage. Other armament consisted of two wing-mounted guns and two propeller-synchronized fuselage guns.

COLORS: FUSELAGE TOP DARK GREEN/GREY
UPPER WING SURFACE LIGHT & MEDIUM GREEN/GREY. NATIONAL MARKINGS BLACK
WHITE STRIPE ON FUSELAGE WITH BLACK 'K'. ALL UNDERSURFACES LIGHT GREEN/GREY

(Ed Note: This airplane has very good proportions for a flying model!!)

Blohm und Voss P 204 data

Role:
Mixed-power single-seat dive bomber and ground-attack aircraft.

Ultimate status:

Design

Powerplant:

One BMW 801D radial engine (1,440hp) and one BMW 003A turbojet (1,764lb. 800 kg st)

Maximum speed:

404mph (650km/h) at sea level, 472 mph at 26,250ft (760km/hr at 8,000m)

Range:

330 miles (530km)

Weight:

18,730lb (8,500kg) loaded

Span:

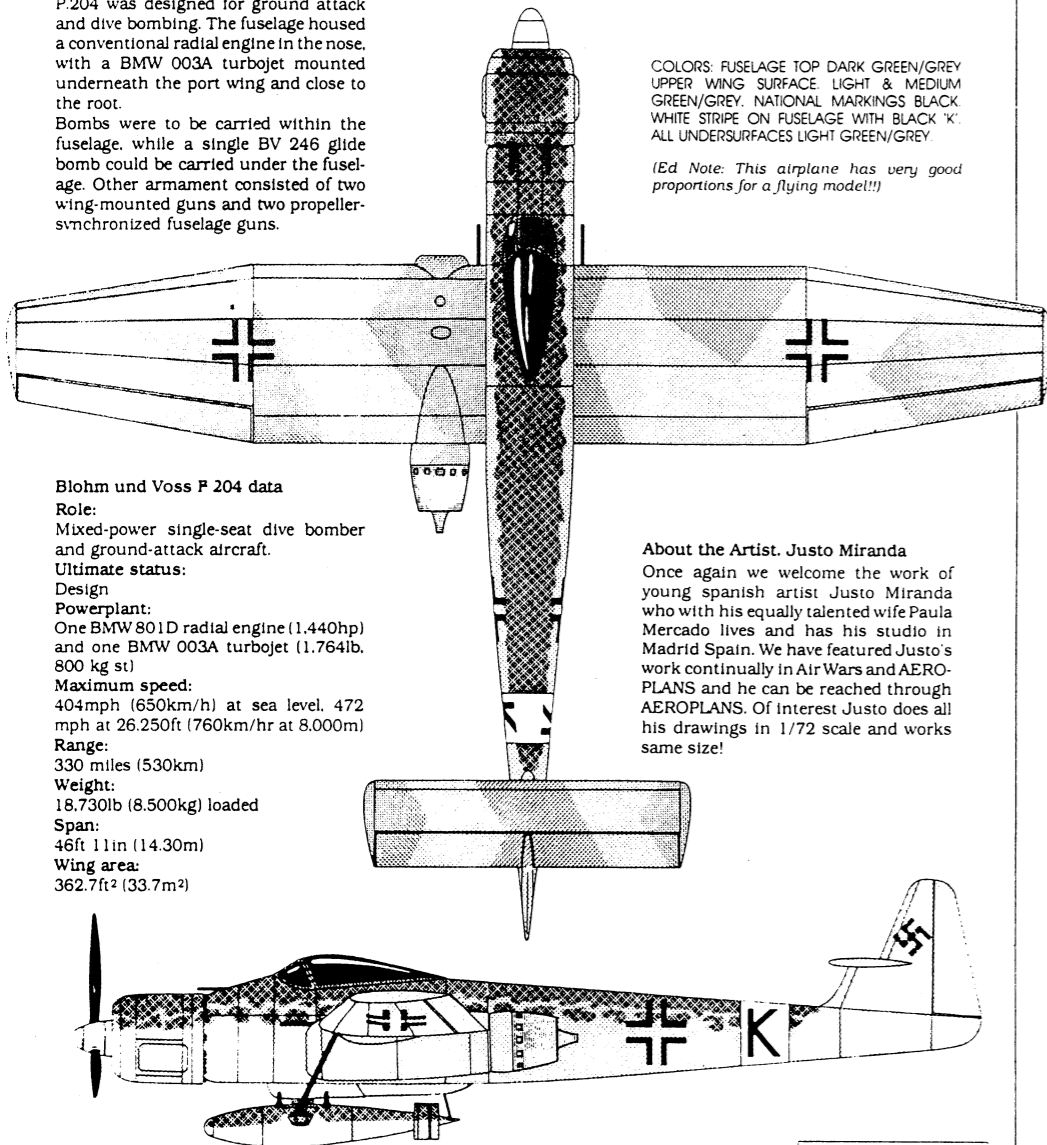

46ft 11in (14.30m)

Wing area:

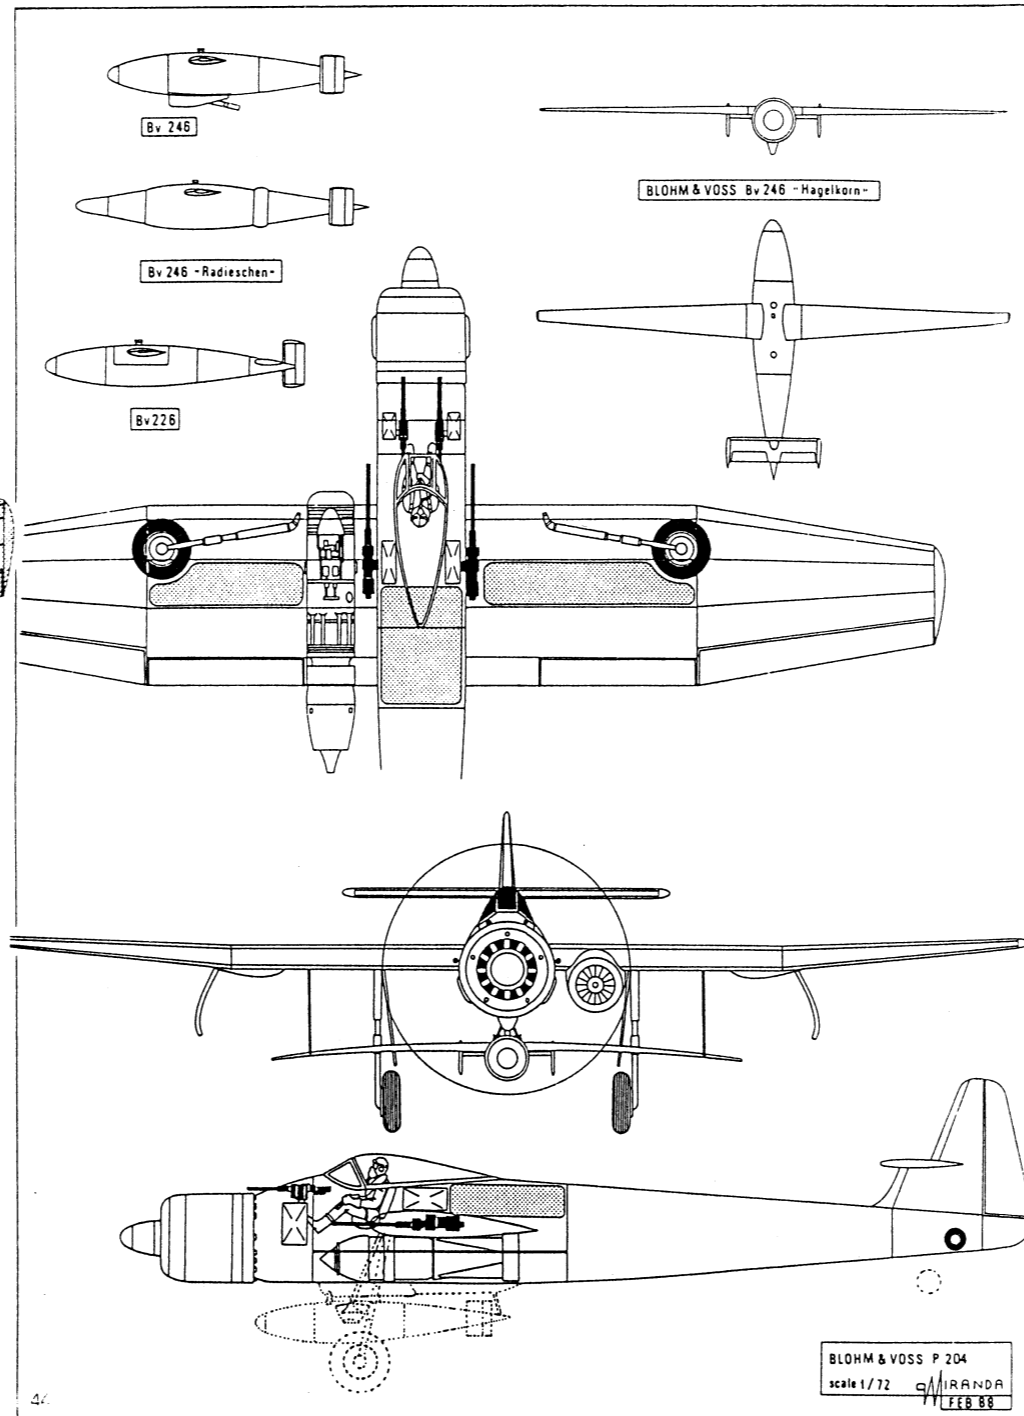

362.7ft² (33.7m²)

About the Artist. Justo Miranda

Once again we welcome the work of young spanish artist Justo Miranda who with his equally talented wife Paula Mercado lives and has his studio in Madrid Spain. We have featured Justo's work continually in Air Wars and AEROPLANS and he can be reached through AEROPLANS. Of interest Justo does all his drawings in 1/72 scale and works same size!
